Commuter Rail – Weber County to Salt Lake City

- Revenue Service – April 26, 2008
- 43 miles with 8 Stations
- Completed ahead of schedule
- Under budget
- Daily Ridership

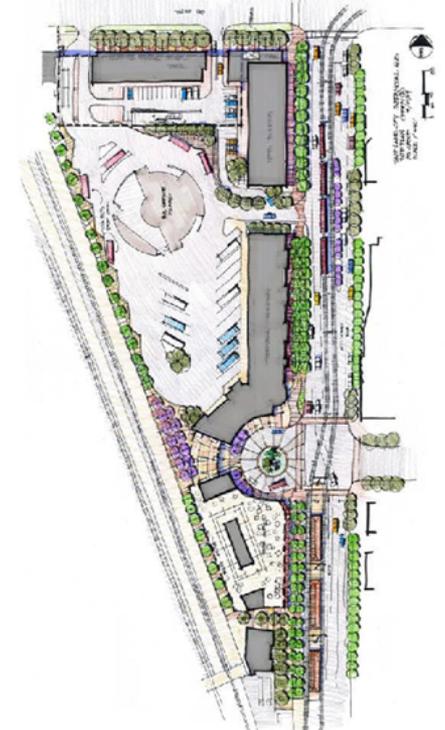

TRAX Extension to Salt Lake Central

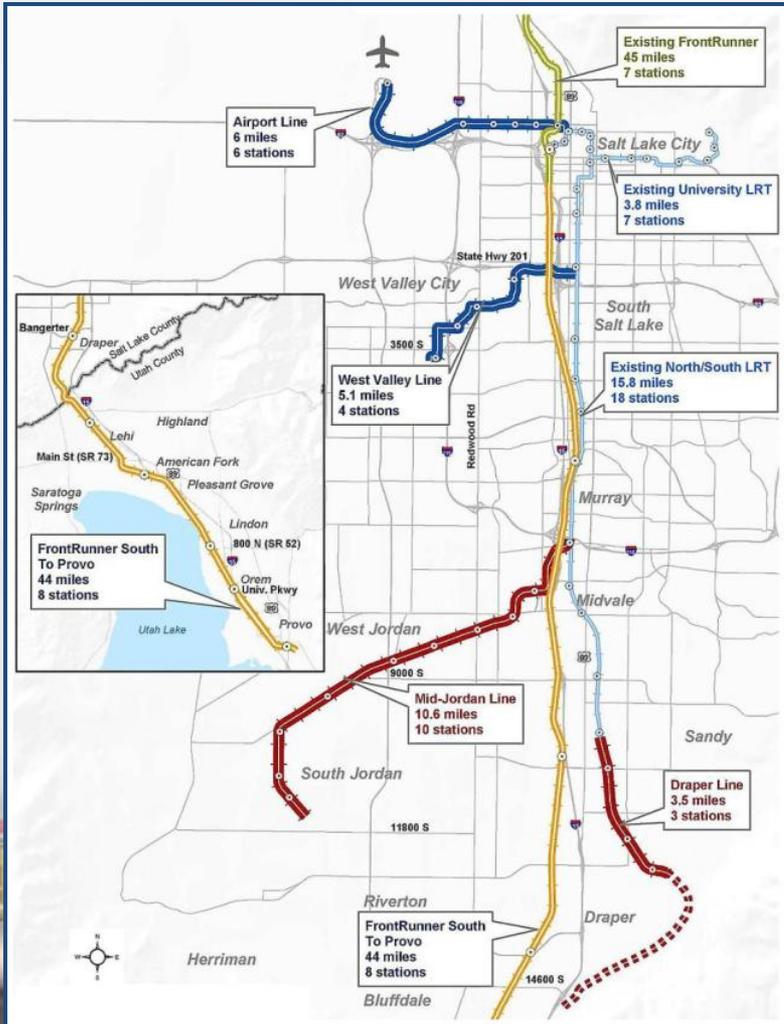

1 mile connection
to FrontRunner at
Intermodal Hub (April 26, 2008)

Gateway Intermodal Hub

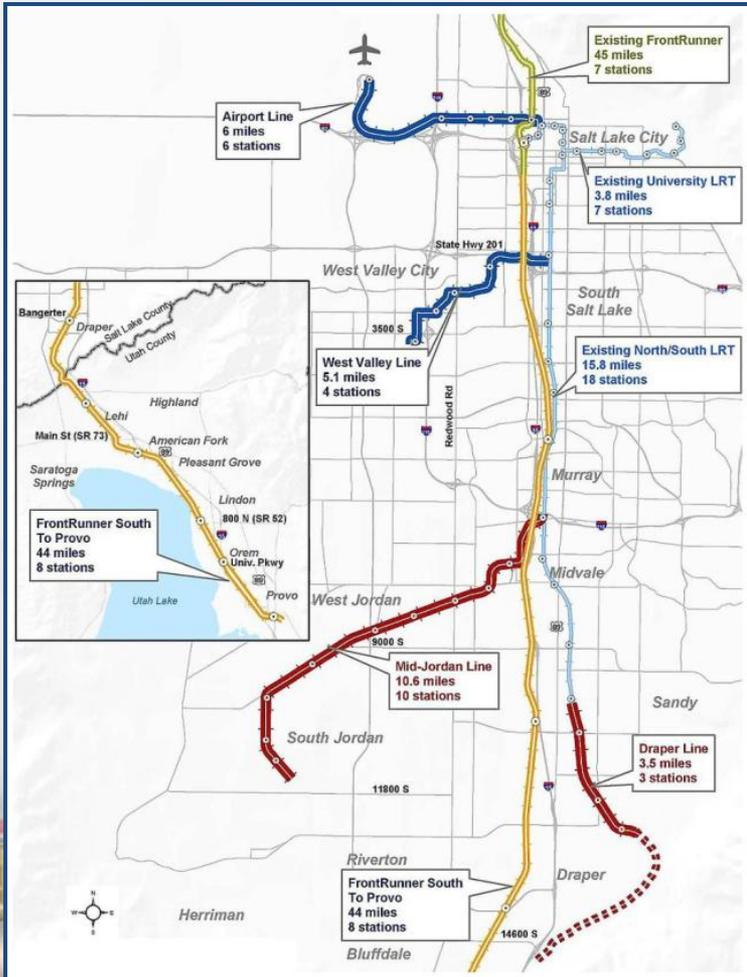

FRONTLINES 2015

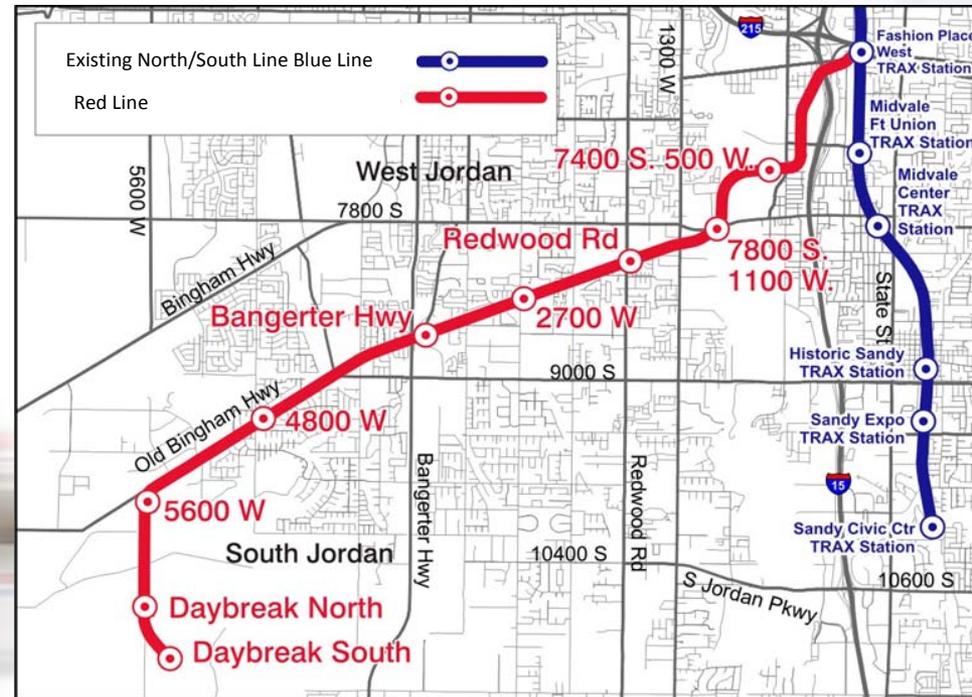

- Largest project in UTA's history
- Building 70 miles of rail in 7 years
- \$2.8 Billion
- 1 project – 5 lines
 - Mid-Jordan TRAX – opened August 7th, 2011
 - West Valley TRAX – opened August 7th, 2011
 - FrontRunner South – opened December 10th, 2012
 - Airport TRAX – opened April 14th, 2013
 - Draper TRAX – opened August 18th, 2013

Mid-Jordan TRAX Extension

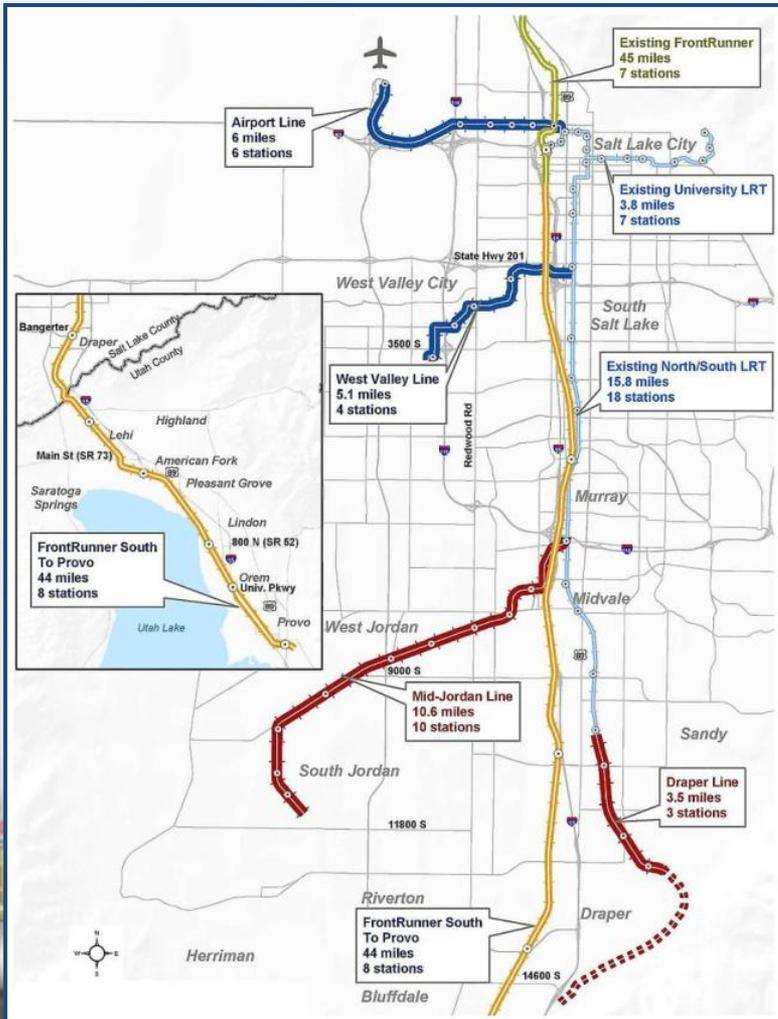

- Opened August 2011
- 10.6 mile extension off Main North/South Line
- 9 additional Stations
- Now part of the “Red-Line”
- Red Line runs from University of Utah to Daybreak- 23 miles long
- 25 total stations

West Valley TRAX Extension

- Opened August 2011
- 5.1 mile extension off Main North/South Line
- 4 additional Stations
- Now part of the “Green Line”
- Green Line runs from West Valley City Hub to Salt Lake International Airport- 15 miles long
- 18 total stations

FrontRunner South

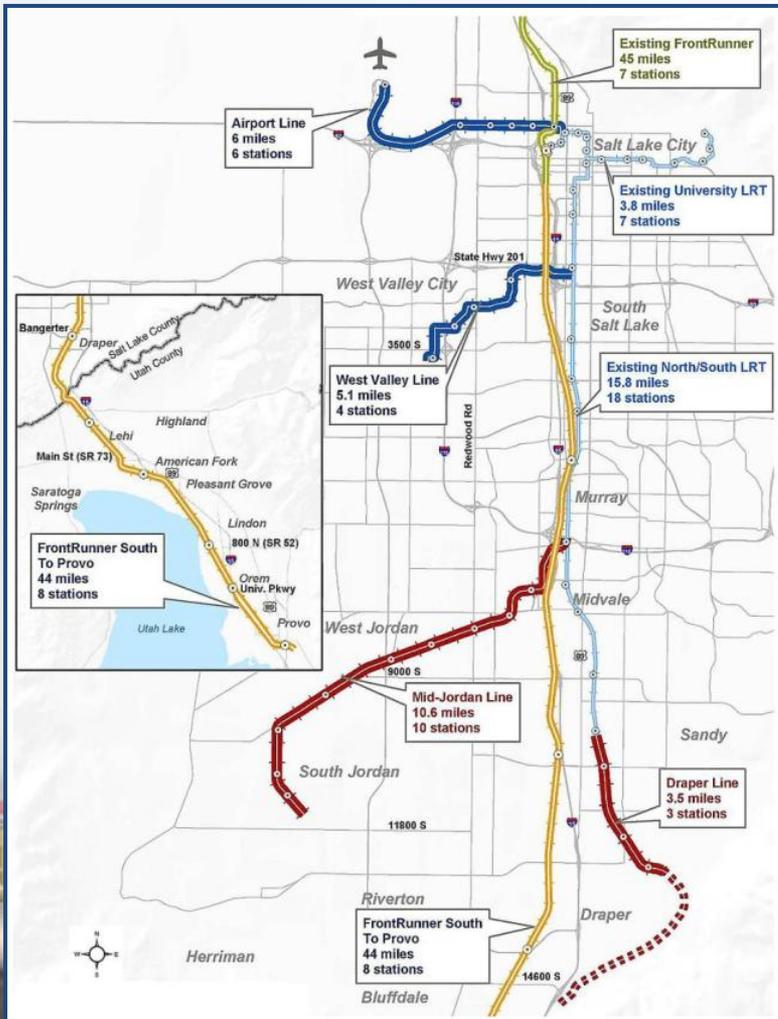

Provo to Salt Lake City

- 45 miles
- 7 additional stations
- Track runs between 25 and 40 feet away from the Union Pacific Railroad (UPRR) track
- Began operations December 2012
- Current daily ridership of 14,500

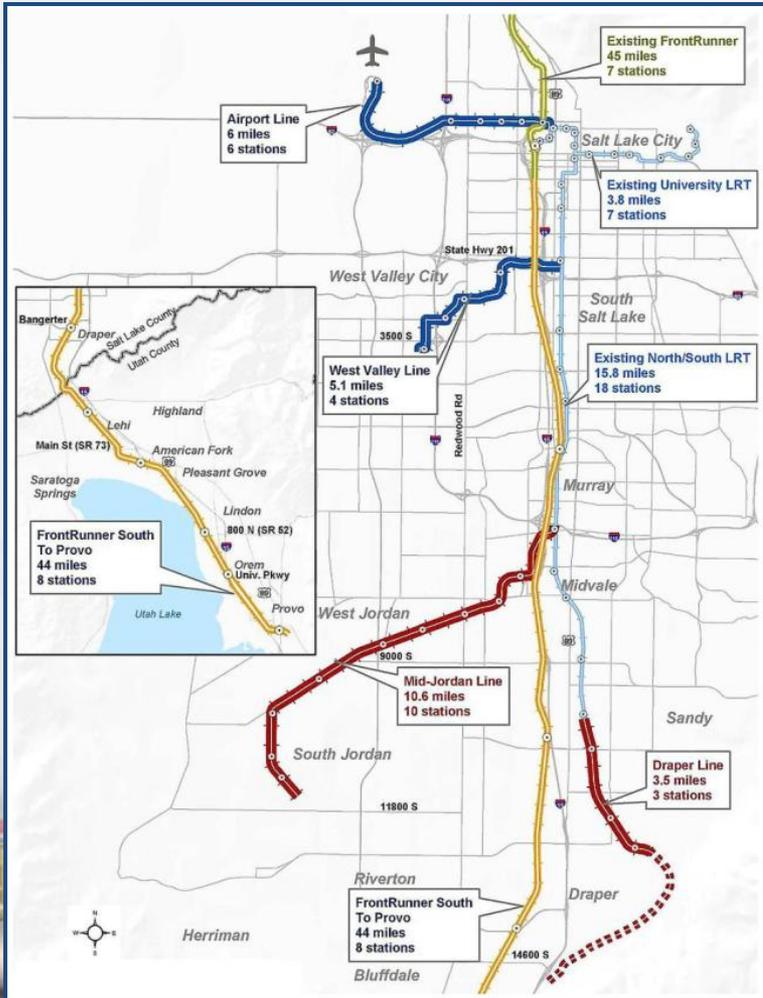

Airport TRAX Extension

- Opened April 2013
- 6 mile extension off Main North/South Line
- 6 additional Stations
- Now part of the “Green Line”
- Green Line runs from West Valley City Hub to Salt Lake International Airport- 15 miles long
- 18 total stations

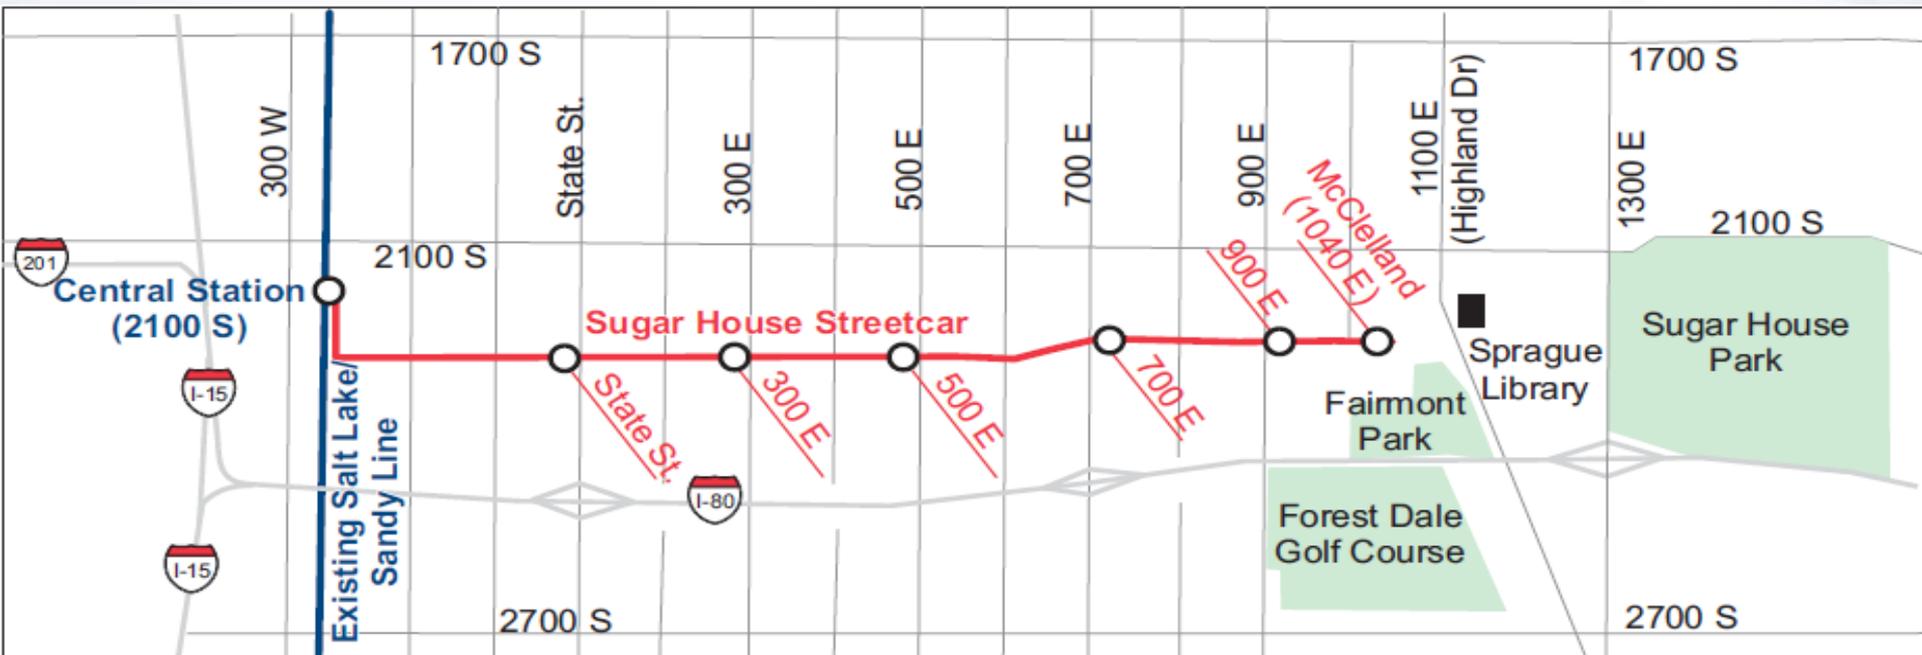

Draper TRAX Extension

- Opened August 18, 2013
- 3.7 mile extension south of Main North/South Line
- 3 additional Stations
- Will be part of the “Blue Line”
- Blue Line runs from downtown Salt Lake City to Draper- 19.3 miles long
- 24 total stations

Sugar House Streetcar

- \$55.5 million project
- UTA providing right-of-way and vehicles - \$18.3 million
- Projected Ridership 2,000/day
- First streetcar project in SLC
- Will promote development along corridor
- Shared corridor with “Greenway”
- 2 mile line
- 7 stations
- Using 3 S70 Vehicles modified for streetcar
- Partners with Salt Lake City and South Salt Lake City
- Opened December 2013

Maintenance Of Way

- The First line to open in 1999 was under FRA oversight.
- Temporal separation of freight and light rail operations
- The Maintenance of Way group was developed with FRA regulation in mind.

Infrastructure

- 50 Substations 1.5 megawatt
- 100 miles of catenary fixed and constant tension
- 132 Grade crossings with lights, bells and gates
- 282 Powered switches M23, 5F,CTS2 and Hanning and Kahl in track 61 and 100 types
- All Powered switches are heated (gas or electric forced air and rod)
- 73 Bridges and Box Culvert structures

Infrastructure

- 2 Light Rail Maintenance shops storage for 180 cars
- 1 Commuter Rail Maintenance shop storage for 80 coaches and locomotives.
- 2 Freight yards and 12 miles exclusive freight
- 115pd rail with concrete ties
- 20 miles of 133pd rail and concrete ties

MOW Operation

- Mow staff are on site 24hrs per day seven days a week.
- Divided into three departments (Rail Facilities Right of Way Assets, Rail Systems)
- Both commuter and light rail lines are supported by one MOW organization.
- 117 total staff members in group.
